KIT'S CORNER

New and handy products for the "not so big" pup

The Abo Rabbit is a big hit at Kit's house. This eco-friendly toy is made with 24 oz. of natural wool and has a coconut-fiber filling for a nice satisfying crunch when chewed.

When Kit's on the go, the durable Dog-e-Minder collar tag is a simple way to keep track of the basics (bathroom breaks, meals and meds)—much better than those little sticky notes on the dashboard.

More fun than a barrel of puppies! The Kurgo Winga disk is easy on the teeth and sized for more, shall we say, modest canine jaws, and can be flung up to 200 feet. See Kit Run!

Nothing like chewing on an elk antler to pass the time. Wapiti Labs has naturally shed antlers in sizes to suit dogs of all dimensions. Chewing should always be supervised, but these chews last a very long time.

Kit and her sister Holly love to snuggle together on this comfy deep-dish Orvis bed with its sturdy fleece cover. Doesn't take up too much space in a room either.
